Senior Network Function Engineer (F/M/D)

ABOUT THE ROLE

We are currently seeking a Senior Network Function Engineer who is passionate about the potential of a fully converged network platform. If you are excited about driving innovation in network engineering and thrive in a dynamic environment, this could be the perfect role for you.

YOUR IMPACT

At Inter.link we're trailblazers that dream big, take risks, and are challenging global connectivity's sustainability. If you are ready to do the same, have a great sense of humour, want to join a striving team, you are a great fit.

**Theo our CEO & Co-Founder
is looking forward to hearing
from you!**
