

inter.link

Sales Engineer/Solutions Architect (F/M/D)

Inter.link offers network-as-a-service, (NaaS), global internet connectivity and infrastructure security services based on its own international backbone (AS5405). Inter.link's mission is to provide better, sustainable, and fully automated global connectivity services, with 50+ Points of Presences (PoPs) covering every continent, by the end of 2023. Inter.link will offer a global footprint and unmatched sustainable connectivity for all its customers.

ABOUT THE ROLE

- **Technical Expertise:** Serve as the technical expert on Inter.link's NaaS offerings, demonstrating a deep understanding of networking technologies, protocols, and industry trends.
- **Solution Design:** Collaborate with sales teams and customers to understand their network infrastructure requirements and design customized NaaS solutions that align with their objectives.
- **Pre-Sales Support:** Develop and deliver high-impact technical presentations and product demonstrations to showcase the value and capabilities of our NaaS offerings.

**Nicol our Special Projects
Manager is looking forward
to hearing from you!**
